

High Hair Ambassador

Nadine has been fortunate enough to be chosen by Wella to represent their High Hair Styling range! This position will enable her to play a vital role in creating new High Hair Imagery, and be over all ambassador for High Hair through education, and events. Nadine will also be an editorial spokesperson when needed. This is a fantastic achievement and will see Nadine traveling to Sydney, Melbourne, Perth, Adelaide and Launceston this year to educate other hairdressers in new catwalk styling techniques.

Celebrity Styling

Is your hair getting oily by the end of the day? Why not try the "Genie ponytail" as seen here on Kim Kardashian and Beyonce. To achieve this look at home, smooth out your hair using the High Hair Flat Iron spray and your straightening iron. Next, brush your hair into a high pony tail and secure with a 'smoothie' or tangle-free elastic. Now spritz on some High Hair Gloss Serum spray and smooth over with your palms. Other burgeoning trends include heavy, blunt fringes and seaside eye colours in blue, green and silver. Great ID colours to try include azure, mermaid and celestine.
