

Sebastian relaunch

Last month we held a glamorous night of models, bubbles and friendly banter in our Red Hill salon.

Our apprentices all got together and put on their own event to celebrate the relaunch of Sebastian. Five years of research and millions of dollars have resulted in an improved product range that is all about making your hair look amazing. Our favourites, such as **Crude Clay** and **Potion 9**, are still here (phew!), but we're really excited about some of the new additions. Look out for "Trilliant" and "Potion 9 Lite".

Trilliant

Trilliant is a shimmery spray that provides heat protection when styling, whilst leaving your hair full of body and soft shine.

Potion 9 Lite

Potion 9 Lite is both a powerful leave-in treatment and an ultra light styling lotion. Active target conditioners restore undernourished hair for radiant shine.

Organics

For the kids.... eco.kid

There is no bad stuff allowed in **eco.kid** products. Only flowers and trees, oils and leaves that are organically certified, wild harvested and a nice shade of grassy green...plants, plants, plants, and you guessed it...more plants – and they PREVENT headlice!
