ASAP

This fantastic skin care range is new to our West End salon. It is Australian Made, and provides skin care solutions for men and women based on the use of active ingredients such as AHA & anti-oxidants. You can go to their website, answer a couple of quick questions, and find out which products will suit your skin. Pick up a cleanser starting from only \$24!

Supernatural Colour

Create your own natural

Together with your Wella Professionals stylist, create dimensional subtle or expressive natural colour results. Ask for the Natural Art Service by name.

Expressive

For Expressive Super-Natural results, we've used mesmerizing colour effects that combine light and shadow. The colour is then beautifully brought to life through precision haircuts and ultra controlled styles.

Subtle

For more subtle natural colour, the light is able to catch and reflect the hair's different multidimensional tones. Wonderfully voluminous styles that give loads of natural movement really showcase the colour.

Ask your colourist to show you these great new techniques from \$90 only.

American Crew Competition

Staff members from both of our salons are entering the American Crew Competition....watch this space!!

Celebrity style guide

It used to be that we hated it and would also try to get rid of it....regrowth, but that's the new look!! Celebrity stylist, Josh Wood, is famous for the uber-natural looks we see on glamazons like Elle Mcpherson, and we just love it! This look is also popular with fun-loving, low maintenance girl, Cameron Diaz.

At Rokstar, we've been inspired by the beach bum supermodel look and have come up with several techniques to achieve the perfect look on light or dark hair. This freestyle method of colour application allows your colourist to personalise your highlights to suit you, perfectly and effortlessly.

Moroccan Oil
